

Kiilto's hybrid system utilises waste heat as well as geothermal heat ...

#geothermal heat #heat recovery

Implementation year
2018

Investment
320 000 EUR

Annual return
80 000 EUR/a

Lifespan
20 years

Payback time
4,0 years

Internal rate of return
25%

Energy saving
1 800 000 kWh/a

Emission reduction
310 000 kg CO₂/a

QUOTATION

"The industrial scale hybrid system utilising waste heat, ground heat, and ground cooling is presumably the only one of its kind in Europe, if not the en..."

— - Vesa Juhannusvuori, Technical Manager, Kiilto Oy
